Subject: Rad area IR02 and timing for mtg
Attachments: IR02 Final Closeout Report Exec Sum Ch 1.pdf; ATT00001.htm; IR02 TCRA Final Report figure 4-5.pdf; ATT00002.htm; IR02 TCRA Final Report figure 4-3.pdf; ATT00003.htm; IR02 TCRA Final Report figure 4-2.pdf; ATT00004.htm

Here is another area with concerns. In addition I wanted to see what times are good to talk with the Navy in the next couple of weeks. Dave said next Wednesday 9/27 might be good for him. I know Thursday, September 29 is bad for me and Nina.

Subject: pretty sure this is the site

Hi Lily,

I remember that there was one area in this larger excavation where they excavated to a much greater depth (into groundwater) than the rest of the excavation). On figure 4-2 the blue areas are deeper. Figure 4-3 gives the highest post-excavation confirmation sample results and locations. Figure 4-5 is a geophysical survey. Pink and red colored areas are where significant amounts of metal are still buried. (They found a lot of various junk in this excavation, so some of it may not be the targeted rad dials and devices).
